N-GREEN

ENHANCING ENVIRONMENTAL SUSTAINABILITY OF CITIES AND COMMUNITIES THROUGH A NEIGHBOURHOOD-CENTRED APPROACH

THE RESULTS

N-GREEN Toolkit

Materials and tools to co-design participatory neighbourhood-centred practices encouraging the urban green transition.

N-GREEN Hackathons

A combination of training sessions and competitive challenges for implementing, and evaluating actions within their local communities.

N-GREEN Community Engagement Forums

In-person events aimed at promoting the project results and raising awareness about the project topic.

THE PROJECT

The project aims to strengthen environmental sustainability in cities and communities by equipping civil society organizations (CSOs) with tools and support to promote participatory practices at the neighborhood level.

It intends to:

- establish environmental sustainability actions through a participatory, neighbourhood-centred approach
- improve knowledge, skills, and competencies of CSO workers and volunteers to implement local sustainability actions
- raise awareness of the key role neighbourhoods play in supporting the urban green transition through a bottom-up participatory approach

THE PARTNERS

Cooperativa Fano al Centro-
Italy

Mindleap s.l. - Spain

The Common Ones -
